ADVANCE GERMAN TECHNOLOGY

The Jindal Group is an acknowledged leader of India's plastic industry. It is credited with pioneering several path breaking products and has been a torch bearer in the transition from conventional to advanced plastic piping products in the country. Its customer centric approach fuels its research for designing unmatched quality products to meet the aspirations of its quality conscious customers. The innovative product portfolio offered by Jindal is extensive in range and application and comprises variety of tanks, pipes and vast spectrum of fittings totalling over 100 diverse products.

After encouraging response to our rotational moulding water tanks, we are pleased to offer yet another unique quality product i.e. premium water storage tanks under the brand name of Weather Proof. These first of its kind premium overhead water storage tanks are designed to offer many best in class features to meet the requirements of elite class of customers. Weather Proof tanks are made available in five layered design with extra thick foam layer to make it extra strong, durable and most importantly to offer superior thermal Insulation properties.
